Open Flames

It is a violation of university policy to light any material on fire on campus. Candles, other open flame devices, and incense are strictly forbidden for use inside university facilities except during official religious ceremonies such as the observance of Chanukah. Those individuals wishing to utilize candles in observance of a religious holiday or any other event shall contact OESO - Fire Safety Division to obtain permission and information concerning fire prevention. Students will be held financially accountable for any damage they cause as a result of violating this policy and will be referred to the disciplinary process.
