PREMANUFACTURE NOTIFICATION

Laboratories are responsible for determining whether a substance you intend to import or manufacture is a “new” chemical substance as defined by TSCA (40 CFR 720.3). Laboratories must submit a PreManufacture Notice (PMN) if you intend to manufacture any new chemical substance that is not on the TSCA inventory of otherwise excluded from notification. Form EPA 7710-25 must be completed and submitted to the EPA for PMN.
