

Battery Recycling

The Environmental Programs division **does not** accept ***regular alkaline batteries*** (non-lithium containing) for recycling. They may be disposed of in the regular trash.

Commonly Recycled Batteries

Lithium (Li)
Lithium Ion (Li-ion)
Nickel Cadmium (Ni-Cd)
Nickel Metal Hydride (Ni-MH)
Nickel Zinc (Ni-Zn)
Sealed Lead (Pb)

Submitting Batteries:

All Recyclable Batteries can be submitted as waste through our [Lab Safety & Waste Management System](#).

All batteries must have their **terminals taped** or be **individually bagged** prior to being submitted as waste.
